# IMPORTANT BATTLE

Between Colombia's Maval Forces and Insurgents.

# WHICH LASTED FOUR HOURS.

Fully Two Hundred Men Perish in the Fight-Affair Disastrous to the Revolutionists, Though Government Losses Were Heavy.

NEW YORK, Nov. 2 .- A dispatch to the Herald from Panama, Colombia, says: A French steamer arriving at Colon has brought further official detalls of the important naval engagement between the government forces and the revolutionists on the Magdalena river, at Puerta Nacional, on Octo-

The government forces were on the armored steamers Hercules and Colom-bia, which were well fitted up and armed for war purposes. The rebels had several river boats which they had seized, but the vessels were not armor-ed in any way and were wholly unprovided with fighting facilities. The battle lasted more than four hours and the fighting was very severe. The revolu-tionists fought like heroes, but the odds against them were too great, and they were finally forced to yield.

The Colombia's machinery was dis-abled after the first shot had been fired. The rebels on the powerful dredge Cristobal Colon were just about to board the disabled steamer in the mid-die of the river when the 'Hercuips steamed up to the river and a shot at close quarters from her Hotchkias gun, sunk the dredge with all on board. More than 200 men were killed or drowned in the desperate battle. Most of them were from Liaranguilla. All accounts agree that the affair was disastrous to the revolutionists, though the government's loss was very heavy,

The steamers Elena, Cisneros Bacust quilla and Elbera were recaptured by the government's forces and towed down the river in an almost worthless condition from the effects of the heavy fire poured into them for four hours. One of the prominent rebel leaders in the engagement was Colonel Eustachio Navarrio. Genral Diego Castro, on the government's side was badly wounded

in the right eye.

Headquarters of the rebels have not been established in Sabanslargo. The revolutionists purpose is to again try to obtain control of the Magdalena river, but government troops on the steamers Samper and Manuela Aycardi are actwatching their movements and seeking to prevent their success. Between Muenaventura and Bogota the land wires are interrupted and nothing is known of what is going on in the interior departments, but it is believed the state of affairs is serious.

The steamer Laboget has arrived

with 100 recruits to reinforce the Colombian regiment here. General Stria left on the Boyace for a cruise along the coast and to ports in the departments. General Belizrio Lozada has again assumed command of the forces here. Panama continues quiet and there is no fear whatever of disturbance in this section of the republic.

# THE FIRST BABY.

the Coming is Looked Forward to With Both Joy and Pear and its Safe Arrival is Hailed With Pride and Delight by All.

The arrival of the first baby in the household is the happiest and most important event of married life. The young wife who is to become a mother delights to shink of the happiness in store for her when the little one shall nestle upon her breast and latterly she shall hear it lisp the sweat and holy name, "mother."

when the little one shall nestie upon her breast and latterly she shall hear it lisp the sweet and holy name, "mother." But her happy anticipation quickly vanishes when she realizes the terrible pain and suffering through which she must pass while bringing the little one into the world. An indescribable fear of the danger attendant upon the ordeal soon dissipates her joyfulness.

Thousands of women have learned by experience that there is absolutely no necessity for the sufferings which attend child-birth; they know that by the use of "Mother's Friend"—a scientific liniment—for a few weeks before the trying hour, expectan', mothers can so prepare themselves for the final hour that the pain and suffering of the areaded event are entirely obviated and is is safely passed through with comparatively little discomfort.

All women are interested, and especially expectant mothers who for the list time have to undergo this trial, in such a remedy; for they know the pain and suffering, to say nothing of the danger, which is in store for them. "Mother's Friend" is woman's greatest blessing, for it takes her safely through the severest ordeal of her life. Every woman should be glad to read the listle book "Before Baby is Born," which contains information of great value to all. It will be sent free to any one who sends their address to The Bradfield Regulator Co., Atlanta, Ca.

### VICE PRESIDENT'S RETIREMENT

Will Necessitate the Selection of Another Man for Second Place on National Republican Ticket - Will Probably Come From New York.

NEW YORK, Nov. 2 .- A special dispatch to the Herald from Washington may's:

Vice President Hobart's announce-ment through members of his family, of his retirement from public life, will make it necessary for the Republican national convention to choose another running mate for President McKinley should the President be renominated next year. It will also necessitate the choice of a president pro tem for the senate to preside over its deliberations until a new vice president takes office. Republican politicians are practically

agreed that Mr. Hobart's successor on the Republican ticket next year must come from New York state. Senator Platt was in this city to-day and it is understood that candidates were discussed. If Governor Roosevelt had not so clearly indicated his disinclination to accept the second place on the ticket he would be an important factor in the speculations as to the candidates. His nomination is regarded, however, as being practically out of the question, and the two men most discussed are Secretary Root and General Frederick Grant. Senator Frye, of Maine, was the president pro tem in the last Congress, and he will without doubt be reelected for the new Congress, and will be the real presiding officer of the senate until March 4, 1901.

Young Art Student's Body Found Near New York City.

NEW YORK, Nov. 2.-There is no room for doubt that the body found in the bay at Key Port, N. J., last evening was that of Frederick Hardy, jr., of Mount Pleasant, Tenn., or that the young man (he was twenty-one years of age), was murdered and an attempt made to conceal the crime by sinking the corpse in the bay by means of a large stone attached to the body by means of a rope. The accumulation of gases in the body caused it to rise to the surface and the finding of it by oystermen followed. The pockets of the young man's clothing were turned inside out and his money and watch were gone. There were evidences that Hardy had been beaten on the head

Standard Oil Hearing Nov. 23.

COLUMBUS, O., Nov. 2.-The supreme court to-day fixed November 23 as the date for the hearing of cases against the Standard Oil and constituent companies. However, he will have all the evidence and briefs in the hands of the court for his successor before he steps down and out of office.
